The International Conference on  
IP/IoT\_&\_Processing  
+ Optical Network(iPOP2022)  
Exhibition and Conference

**iPOP2022, will be held as a hybrid of in-person and virtual conferences at Yagami Campus, Keio University, Japan on June 3, 2022.**

The conference is intended to share among the industry and the academia communities, the knowledge, new findings, and experience on the state-of-the-art of “IP[IoT&Processing]+Optical Networking technologies.” Within the theme, we are augmenting the existing central theme of the conference with forward 6G (Beyond 5G) network and smart city which includes backbone, platform and services. In addition, we have network topics such as SDN, NFV and service chaining with the focus on reliable, manageable, flexible and cost-effective carrier and/or service provider networks. The iPOP2022 anticipates a draw of over 200 attendees, made up of network operators, service providers, and equipment vendors.

Join us and other industry leaders in the IP/IoT&Processing+Optical network technologies. For booth reservation and all other requests, please contact iPOP2022 Exhibition Secretary ([ipop2022-exhibition@pilab.jp](mailto:ipop2022-exhibition@pilab.jp)) by **May 10, 2022**.
